76057 checked in at 8:30 and was checking out scheduling his next appointment at 8:34. According to the PN, the patient was brought back at 8:28 and the appointment ended at 8:45. This goes against the coding guidelines noting that a 90833 appointment MUST be at least 16 minutes long.

Thanks,

Anjelica Brown
Interoffice Assistant
Carolina Partners in Mental HealthCare, PLLC
